COMPREHENSIVE NURSING CURRICULA & CLINICAL ROTATION FRAMEWORK

Session 2026-2027 | In Compliance with Indian Nursing Council (INC) & BNRC Regulations

STATUTORY CURRICULAR ALIGNMENT & ACCREDITATION STANDARDS

The curricula at Kavya Shree Institute of Nursing strictly adhere to the Competency-Based Educational Directives prescribed by:

1. Indian Nursing Council (INC, New Delhi) - National Regulatory Framework and Revised Regulations.
2. Bihar Nursing Registration Council (BNRC, Patna) - State Examination and Registration Protocols.
3. Aryabhatta Knowledge University (AKU) / Bihar University of Health Sciences (BUHS) - Degree & Examination Framework.

Our programs follow Outcome-Based Education (OBE) principles, blending didactic classroom teaching, high-fidelity laboratory clinical simulation, supervised hospital bedside patient postings, and rural/urban community healthcare internships.

CORE NURSING COMPETENCIES & GRADUATE ATTRIBUTES

Key Professional Skills Cultivated Across All Programs

1. Diagnostic & Clinical Care

Health assessment, vital signs monitoring, aseptic procedural skills, and individualized nursing care plans (NCP).

2. Pharmacology & Patient Safety

Safe medication administration, calculation of dosages, pharmacovigilance, and infection control compliance.

3. Maternal & Child Health

Antenatal checkups, conduction of normal deliveries, neonatal resuscitation, immunization, and APGAR scoring.

4. Critical & Emergency Nursing

Basic & Advanced Life Support (BLS/ACLS), ventilator management, trauma triage, and ICU patient monitoring.

5. Community Health & Epidemiology

Primary healthcare delivery, rural outreach, maternal-infant welfare, national health programs, and disease surveillance.

6. Ethics, Leadership & Research

Patient advocacy, legal healthcare frameworks, continuous internal audit, nursing research, and healthcare management.

TOTAL CURRICULAR HOURS & CREDIT DISTRIBUTION SUMMARY

Statutory Instructional Hour Norms Across the Five Programs

Academic Program	Duration	Theory Hours	Lab / Skill Simulation	Clinical Hospital Hours	Total Hours
Auxiliary Nursing & Midwifery (ANM)	2 Years (4 Terms)	640 Hours	320 Hours	1,760 Hours	2,720 Hrs
General Nursing & Midwifery (GNM)	3 Years (Annual)	1,280 Hours	640 Hours	2,960 Hours	4,880 Hrs
B.Sc. Nursing (Undergraduate Degree)	4 Years (8 Sems)	1,680 Hours	720 Hours	3,840 Hours	6,240 Hrs
Post Basic B.Sc. Nursing (Bridge Degree)	2 Years (Annual)	880 Hours	240 Hours	1,600 Hours	2,720 Hrs
M.Sc. Nursing (Postgraduate Degree)	2 Years (4 Sems)	900 Hours	300 Hours	2,000 Hours	3,200 Hrs

BACHELOR OF SCIENCE IN NURSING (B.Sc.) - 4-YEAR CURRICULUM

Comprehensive Undergraduate Degree Integrating Biomedicine, Advanced Clinicals & Leadership

YEAR 1 (Semesters I & II): Foundations & Biomedical Sciences

Theory: 570 Hours | Skills Lab: 200 Hours | Clinical Posting: 400 Hours

* Applied Anatomy & Applied Physiology: Visceral organ systems, musculoskeletal, cardiovascular, and nervous pathways (120 hrs).
* Applied Biochemistry & Applied Nutrition and Dietetics: Caloric metabolism, macronutrients, and therapeutic diets (120 hrs).
* Nursing Foundations I & II: Comprehensive fundamental care, infection control, first aid, BLS CPR, and patient safety (240 hrs).
* Applied Psychology & Interpersonal Communication: Behavioral dynamics, patient coping mechanisms, and counseling ethics (90 hrs).
* Health Assessment & Physical Examination: Systematic head-to-toe examination techniques and diagnostic vital monitoring (100 hrs).

YEAR 2 (Semesters III & IV): Core Clinical Nursing & Pharmacology

Theory: 580 Hours | Skills Lab: 180 Hours | Clinical Posting: 640 Hours

* Applied Pharmacology I & II: Pharmacodynamics, drug calculations, safe medication administration, and toxicological risks (150 hrs).
* Adult Health Nursing I (Medical-Surgical Nursing I): Pathophysiology and nursing management of systemic disorders (210 hrs).
* Applied Pathology & Genetics: Molecular disease origins, clinical lab values interpretation, and congenital disorders (100 hrs).
* Community Health Nursing I & Environmental Sciences: Epidemiology, sanitation, water safety, and rural field surveys (160 hrs).
* Infection Control & Biomedical Waste Management: Sterilization, disinfection protocols, and hospital waste segregation (60 hrs).

YEAR 3 (Semesters V & VI): Specialty Care, Pediatrics & Research

Theory: 450 Hours | Skills Lab: 160 Hours | Clinical Posting: 940 Hours

* Adult Health Nursing II (Medical-Surgical II): Critical care, emergency, trauma, oncology, and perioperative nursing (150 hrs).
* Child Health Nursing (Pediatric Nursing): Neonatal resuscitation, pediatric disorders, growth monitoring, and IMNCI (180 hrs).
* Mental Health Nursing (Psychiatric Nursing): Psychopathology, therapeutic communication, electroconvulsive therapy care (160 hrs).
* Nursing Management & Professional Trends: Leadership principles, ward organization, quality assurance, and legal ethics (80 hrs).
* Nursing Research & Biostatistics: Research methodology, sampling techniques, data analysis, and student project study (105 hrs).

YEAR 4 (Semesters VII & VIII): Midwifery & Mandatory Clinical Internship

Theory: 210 Hours | Skills Lab: 80 Hours | Full-Time Hospital Internship: 1,152 Hours

* Midwifery & Obstetrical Nursing: Normal antenatal care, conduction of labor, obstetric emergencies, neonatal care (280 hrs).
* Community Health Nursing II: Health administration, primary health center management, and national health programs (170 hrs).
* Integrated Clinical Internship (Mandatory 24 Weeks / 48 hrs per week):
* - Medical & Surgical Super-Specialties & Trauma Casualty: 6 Weeks | Intensive Care Units (ICU / ICCU): 4 Weeks
* - Obstetrics & Gynecological Labor Room / Antenatal / Postnatal Wards: 6 Weeks | NICU / Pediatric Wards: 4 Weeks
* - Primary Health Centers (PHC) & Community Health Centers (CHC): 4 Weeks (Intensive rural outreach)

GENERAL NURSING & MIDWIFERY (GNM) - 3-YEAR DIPLOMA

Comprehensive Bedside Clinical Discipline and Hospital Patient Management

FIRST YEAR: Foundational Biological & Behavioral Sciences

Theory: 560 Hours | Lab / Clinical: 880 Hours

* Bio-Sciences: Anatomy & Physiology (90 hrs), Microbiology (30 hrs) - Systemic structure, microbiological culturing, and disinfection.
* Behavioral Sciences: Psychology (60 hrs), Sociology (30 hrs) - Human behavior, stress dynamics, and community cultural patterns.
* Nursing Foundations: Fundamentals of Nursing, First Aid, Personal Hygiene, Patient Safety, Environmental Sanitation (290 hrs).
* Community Health Nursing I & Nutrition: Food groups, nutritional deficiencies, and primary healthcare delivery (150 hrs).

SECOND YEAR: Adult Medical-Surgical Nursing, Psychiatry & Child Health

Theory: 480 Hours | Clinical Posting: 960 Hours

* Medical-Surgical Nursing I (including Pharmacology): Cardiovascular, respiratory, gastrointestinal, and renal care (200 hrs).
* Medical-Surgical Nursing II: Specialties in ENT, Ophthalmology, Dermatology, Orthopedic, Oncology, and Burn Care (140 hrs).
* Mental Health Nursing: Psychiatric nursing interventions, psychopharmacology, and therapeutic community methods (70 hrs).
* Child Health (Pediatric) Nursing: Assessment of sick children, high-risk newborn care, and pediatric medicine (70 hrs).

THIRD YEAR: Midwifery, Gynaecological Nursing & 6-Month Internship

Theory: 240 Hours | Clinical Bedside Internship: 1,120 Hours

* Midwifery & Gynaecological Nursing: Maternal health assessment, normal and abnormal labor, post-natal management (140 hrs).
* Community Health Nursing II & Health Administration: Rural health infrastructure, epidemiology, and record keeping (100 hrs).
* Mandatory 6-Month Clinical Internship: Full-time hospital shift rotations in ICU, Operation Theatre, Labor Room, and Casualty.

AUXILIARY NURSING & MIDWIFERY (ANM) - 2-YEAR DIPLOMA

Maternal & Infant Health, Immunization and Primary Healthcare Delivery

FIRST YEAR: Community Health Nursing, Primary Care & Health Promotion

Theory: 400 Hours | Practical / Field: 800 Hours

* Community Health Nursing: Primary health center concept, organization of health team, environmental sanitation (120 hrs).
* Health Promotion: Nutrition, mental health, hygiene, and environmental factors affecting rural health (120 hrs).
* Primary Health Care Nursing: Infection prevention, wound dressing, treatment of minor ailments, and cold-chain upkeep (100 hrs).
* Child Health Nursing: Care of newborns, management of diarrhea and pneumonia, and universal immunization schedule (60 hrs).

SECOND YEAR: Midwifery, Health Center Management & PHC Internship

Theory: 240 Hours | Field Practical & Internship: 960 Hours

* Midwifery: Antenatal assessment, conduct of normal deliveries, episiotomy, newborn care, and danger signs identification (160 hrs).
* Health Center Management: Maintenance of sub-center records, medicine inventory, maternal deaths audits, and reporting (80 hrs).
* Mandatory 6-Month Sub-Centre / PHC Practical Internship: Hands-on grassroots immunization, family planning, and home visits.

POST BASIC B.Sc. NURSING (2-YEAR BRIDGE DEGREE)

Academic Escalation Framework for Registered GNM Nurses

YEAR 1 (Bridging & Foundational Specialties): Theory: 480 Hours | Clinical: 800 Hours | Total: 1,280 Hours

* Nursing Foundation Review (45 hrs) | Nutrition & Dietetics (30 hrs theory + 15 hrs lab).
* Biochemistry & Biophysics (60 hrs) | Psychology (60 hrs theory + 15 hrs practical).
* Maternal Nursing (60 hrs theory + 240 hrs clinical) | Child Health Nursing (60 hrs theory + 240 hrs clinical).
* Microbiology (60 hrs theory + 30 hrs practical) | Medical & Surgical Nursing (90 hrs theory + 270 hrs clinical).

YEAR 2 (Administration, Community & Nursing Education): Theory: 400 Hours | Clinical: 800 Hours | Total: 1,200 Hours

* Sociology (60 hrs) | Community Health Nursing (60 hrs theory + 240 hrs clinical).
* Mental Health Nursing (60 hrs theory + 240 hrs clinical).
* Introduction to Nursing Education (60 hrs theory + 75 hrs teaching practice).
* Introduction to Nursing Administration (60 hrs theory + 180 hrs hospital admin practice).
* Introduction to Nursing Research & Project (45 hrs theory + 120 hrs field research).

MASTER OF SCIENCE IN NURSING (M.Sc.) - 2-YEAR POSTGRADUATE

Clinical Specialization, Evidence-Based Research & Collegiate Faculty Development

FIRST YEAR: Core Advanced Nursing Sciences, Education & Research Theory: 450 Hours | Clinical Practice: 950 Hours | Total: 1,400 Hours

* Advanced Nursing Practice: Pathophysiology, clinical health assessment, pharmacology, emergency triage, genetics (150 hrs).
* Nursing Education: Curriculum development, instructional technology, test construction, and simulation pedagogy (150 hrs).
* Nursing Research & Advanced Statistics: Research design, qualitative/quantitative methodology, SPSS data analysis (150 hrs).
* Clinical Specialty - Part I: In-depth clinical immersion in chosen specialty domain (Theory: 150 hrs, Clinical: 650 hrs).

SECOND YEAR: Advanced Clinical Specialization, Healthcare Management & Thesis Theory: 300 Hours | Clinical Practice: 1,100 Hours | Total: 1,400 Hours

* Nursing Management & Leadership: Hospital administration, staffing ratios, budget planning, accreditation protocols (150 hrs).
* Clinical Specialty - Part II: Advanced bedside management, procedural expertise, clinical mentorship (150 hrs + 950 hrs clinical).
* Master Dissertation & Thesis: Independent university-supervised empirical research study with oral viva voce defense.

OFFERED M.Sc. CLINICAL SPECIALIZATIONS

Select One for Intensive 2-Year Advanced Practice

1. Medical-Surgical Nursing:	Critical care, cardiology, nephrology, oncology, neurosciences, and trauma emergency nursing.
2. Obstetrics & Gynaecology:	High-risk pregnancy, fetal monitoring, advanced operative obstetrics, and infertility nursing.
3. Child Health (Pediatrics):	Neonatal Intensive Care (NICU), pediatric cardiology, genetic disorders, and developmental health.
4. Community Health Nursing:	Health planning, public epidemiology, disaster management, and rural healthcare delivery systems.
5. Mental Health (Psychiatry):	Psychotherapeutic interventions, de-addiction therapy, psychiatric crisis management, and forensic care.

CLINICAL ROTATION BLUEPRINT & HOSPITAL POSTINGS MATRIX

Hands-on Bedside Patient Exposure Across 250+ Bed Civil Hospitals & CHCs

Clinical Department / Ward	Key Procedural Competencies Mastered	Supervision & Documentation	Min. Clinical Hours
General Medical & Surgical Wards	Bedside patient monitoring, vital signs, pre/post-operative care, wound dressings, IV infusions, NG feeding, catheter care.	Clinical Instructor (1:10) & Daily Logbook Entry	840 Hours (B.Sc.) 640 Hours (GNM)
Intensive Care Units (ICU, ICCU, HDU, Trauma)	Arterial Blood Gas (ABG) sampling, ventilator circuit maintenance, central line dressing, defibrillator setup, crash cart management.	Critical Care Specialist & Continuous Assessment	360 Hours (B.Sc.) 240 Hours (GNM)
Labor Room, Antenatal & Postnatal Wards	Antenatal palpation, CTG monitoring, conducting normal deliveries, episiotomy repair, active management of 3rd stage labor, neonatal care.	Senior Midwifery Tutor & Logbook of 20+ Deliveries	480 Hours (B.Sc.) 360 Hours (GNM)
Pediatric Wards & Neonatal ICU (NICU)	Incubator management, phototherapy, pediatric cannulation, calculating micro-dosages, developmental milestone assessment, resuscitation.	Pediatric Nursing Mentor & Clinical Case Presentation	320 Hours (B.Sc.) 200 Hours (GNM)
Community Health Centers (CHC / PHC / Sub-Centres)	Grassroots immunization, pulse-polio drives, maternal-child health clinics, family planning, water safety testing, school health screenings.	Field Medical Officer & Public Health Coordinator	360 Hours (B.Sc.) 240 Hours (GNM)
Operation Theatre (OT) & CSSD Sterilization	Aseptic scrubbing and gowning, instrument tray preparation, assisting surgical teams, handling anesthesia equipment, autoclave sterilization.	OT Nursing Incharge & Log of Assisted Surgeries	240 Hours (B.Sc.) 160 Hours (GNM)

COMPREHENSIVE EVALUATION & EXAMINATION MATRIX

Continuous Internal Assessment (CIA) & University Examination Norms

Continuous Internal Assessment (CIA) - 25%

* Periodic unit theory examinations and term tests (10%).
* Clinical procedural assessment via OSCE / OSPE (5%).
* Clinical case studies, nursing care plans (NCP) and logbooks (5%).
* Class attendance regularity, seminar presentations, discipline (5%).
* Minimum 50% marks in CIA required to appear in University Exams.

University Annual / Semester Examination - 75%

* Written university theory papers evaluated by external university examiners.
* Clinical bedside examination on real hospital patients (Bedside OSCE).
* Oral viva voce examination evaluated jointly by internal & external experts.
* Scrutiny of endorsed logbooks, clinical procedure records, and case files.
* Strict passing threshold: Minimum 50% in theory and 50% in practical separately.

RECOMMENDED REFERENCE TEXTBOOKS & SCIENTIFIC LITERATURE

Standard Curricular Literature Prescribed by INC and Faculty

Medical-Surgical Nursing:	Brunner & Suddarth's Textbook of Medical-Surgical Nursing (Lippincott Williams & Wilkins)
Fundamentals of Nursing:	Potter & Perry's Fundamentals of Nursing (Elsevier Health Sciences)
Obstetrics & Midwifery:	D.C. Dutta's Textbook of Obstetrics & Midwifery (Jaypee Brothers Medical Publishers)
Child Health Nursing:	Wong's Essentials of Pediatric Nursing (Elsevier Mosby)
Community Health:	Park's Textbook of Preventive and Social Medicine (M/s Banarsidas Bhanot Publishers)
Pharmacology & Pathology:	K.D. Tripathi's Essentials of Medical Pharmacology & Harsh Mohan's Pathology (Jaypee)

STATUTORY CURRICULAR REGULATION DIRECTIVE

- All syllabi, curricular outlines, credit values, clinical postings, and examination schemes are subject to statutory notifications promulgated by the Indian Nursing Council (INC, New Delhi) and the Bihar Nursing Registration Council (BNRC, Patna).
- Academic sessions adhere strictly to official university academic calendars. For queries, contact: academic@kavyashreenursing.edu.in
